A SALOON MAN'S. OPINION

Intended Victims Are Appearing
Before the Grand Jury
Today.

DEPUTY ALLISON'S POSITION

Prosecution, It Is Said, Wants to Im-
plicate Him—A Letter Which He
Is Said to Have Sent Denied
Knowledge of Baker's Plans.

When the first authentic reports of the Baker sensation were given to the public last night, a great many people were inclined to the belief that the man was mentally unsound. His course was so far from clever that even those who knew him best could hardly credit the story.

Among the most intimate of Baker's friends there were those, who, while they acknowledged him to have been a very genial fellow personally, state they would not have placed any confidence in anything he did. One of his intended victims was interviewed last night and said:

"There was not a single doubt in my mind from the beginning that the man was a fraud. In the first place his price was low—far too low—to carry the conviction that he could do what he professed. He named \$100 or \$200 I should have listened to him. I thought all along that he was working alone or had some inexperienced accomplice, or his figure would have been larger.

"A sufficient number of these cases have come under my personal observation to convince me that if a man of this calibre, armed with the authority he is supposed to have, approaches a man he must have some one farther "up the line" who will get the big end of the coin."

"Had Baker been a clever man he would have known that there would be no difficulty in figuring that \$25 from each of the men approached would hardly have paid his expenses, to say nothing of justifying him in the risk he ran."

Since the occurrence of last week inquiry has been made as to Baker's customs and habits while a resident of this city. He was an employee of the East Liverpool railway for almost a year, and from what could be learned in talking with employees now engaged on that line, there was something mysterious connected with his removal—a something which could not be explained.

Aside from the three individual saloonkeepers who made the information against Baker several others have been served with subpoenas to appear today. W. H. Thompson, A. R. Guthrie and Walter Bower received their summons early yesterday morning and later in the day George Parry was called upon to tell what he knew before the 12 good men and true. It is expected that the testimony of Parry will be of great value, since it was his place—the Commercial house, on Second street—at which Baker made his headquarters last week.

The prosecution is endeavoring to show today before the grand jury that Baker and Deputy Sheriff Allison were very intimately associated. So much so, in fact, that it had been his custom to visit Allison at his home in Lisbon. Early last week, according to reports received in this city, Baker was a visitor at the Allison home. He saw a large batch of summonses lying upon a table, all signed and sealed, ready for service. Noticing several familiar names Baker made a closer scrutiny and finally asked the deputy if he did not think he was working a great wrong to many of his friends among the saloon men by carrying out his purpose of serving the papers? Was it not possible to effect a compromise?

The prosecution, it is said, will try to show that Allison readily fell in with the idea, and then and there the compact was made. If the line of evidence is carried out as it was originally planned Baker came to East Liverpool next day and what followed the public is already familiar with.

Baker's part of the program had not progressed far when one of his victims, before making a decision in

the matter telephoned to Deputy Allison.

If the tactics of the prosecution, as originally planned, are carried out, they will show to the grand jury that Allison refused to discuss the subject over the telephone, but said he would write. In due time the letter arrived, and it contained the information that Baker was a friend of his, but disclaiming any knowledge of what he was engaged in here. He assured the recipient of the letter that he was in no way connected with the transaction, but where the best informed authorities are positive the deputy made a very grave mistake was in giving the names of several who were on the list. The communication wound up by saying the writer was very sorry that his friends should be indicted, but the papers would have to be served.

At this point the saloonists consulted a legal authority as to the character of the offense, and after being satisfied that they had a good case, the matter was placed in the hands of the prosecutor. The letter will doubtless be submitted in evidence before the grand jury today.

An incident in connection with Baker's visits to the saloonmen goes to show that whether or not the officials are implicated, Baker was well posted upon the general workings of the office. He also had a knowledge of a very strong feeling between the sheriff's official force and several parties in this city.

When J. C. Walsh was seen by the alleged blackmailer, the former was told that they had it in for him out at Lisbon, and that he was to be indicted. Baker informed Walsh that others would be compromised with, but his instructions were that he (Walsh) would not be permitted to settle for the \$25. He was bound to be convicted.

A majority of those who will testify before the grand jury today left the city on the early train by way of Rochester. Officer Dawson, with Baker, left on the later train going to Alliance, in order that the prisoner should not be taken out of the state, which would have been the case if he was taken by way of Rochester.

A scheme similar to that attempted in East Liverpool is said to have been tried in Salem last week. The Salem saloon men refused to bite. Who the man was that visited them is not known.

LANDED IN LISBON

BAKER ARRIVED AT THE COUN- TY SEAT AT NOON.

A Large Number of Saloon Men Ap-
peared Before the Grand
Jury.

Lisbon, April 15.—(Special)—O. L. Baker, the East Liverpool ex-motorman, charged with attempted blackmail, was brought to Lisbon on the noon train by Officer Dawson, of East Liverpool. A number of witnesses were examined by the grand jury, which is making every effort to get the facts in the case. The following witnesses are known to have been examined, most of them East Liverpool saloon keepers: Joseph W. Geon, Aaron R. Guthrie, J. C. Walsh, Walter Bower, W. H. Thompson, George Parry, Terry Carman and Attorney M. J. McGarry. A committee of the saloon men consulted McGarry regarding the case and because of this interview, it is supposed, McGarry was summoned.

All the saloon men refuse to talk, except that they strenuously deny that any of them was caught by Baker's scheme. The current opinion here seems to be that Baker succeeded in collecting some money. If indicted and convicted Baker will probably get from one to five years in the penitentiary.

After meeting all the collectors making the rounds of the saloons Monday morning, "Crip" Cain and William Swaney repaired to the shantyboat district below the flint mill to do the best they could with what was left of the liquor—inside and out.

About 3:30 o'clock the two men became involved in an argument that promised to result seriously for one or the other. The jangle was kept up for some time, when Cain, whose left arm is a game one, concluded to end the altercation, and in a manner which would permit of no back talk. He picked up a portion of a kiln door and with deliberate aim threw it at Swaney, who states he expected a fair fight. The missile went wide of the mark, and vowing to do better next time, Cain gathered up another fragment. He hurled it in the same direction. This time his aim was better and Swaney was swatted just above the eye.

The ragged edge of the stone-like substance cut a nasty gash in Swaney's forehead and rendered him unconscious for a short time. He soon recovered, however, and with the aid of the patrol was taken to his home in Jethro, where Dr. Metz dressed the wound.

Meanwhile Cain had improved the time to make his escape, and lost no time in quitting the neighborhood. When the police arrived no trace of the fugitive could be found.

Late last night Cain was still at large, but Patrolman Woods got him at the home of his old friend in Dewdrop alley, and he was taken to jail.

Cain was arrested later by Officer Woods and charged by him with "assault with intent to kill." The mayor decided to defer a hearing until Swaney is able to appear. Unless Swaney prefers the same charge as the officer, Cain will be tried for assault and battery only. He is becoming impatient and begs to be sent up.

Dick Burrows, who was in a row at the wharf boat Sunday night, showed up this morning and received the same dose, \$7.60, which was inflicted upon Ormes yesterday.

Jimmie Dutton was arrested by Fireman Bettridge last night on a charge of drunkenness. Dutton wandered into the fire station and was taken from there to the city jail. Mayor Davidson fined him \$5.60. He arranged for the payment of his fine and was released.

Ed O'Neill came to town last Friday from New Castle. He is a kiln-hand and after securing a situation with Thomas Price to go to Toronto, proceeded to bowl up. He was captured by Officer Dawson and this morning was assessed \$5.60. He could not pay and was sent back to jail.

DUDLEY'S BRUTAL CRIMES.

Killed Daughter and Wounded Wife and Two Other Children.

Sallisaw, I. T., April 15.—One of the most brutal murders ever committed in the Indian territory took place a few miles east of Stilwell. A white man named Dudley killed his 10-year-old daughter, fatally wounded two other children and seriously injured his wife. Dudley has been brought to Sallisaw to prevent his being lynched.

In jail Dudley confessed the crime. He said he had been talking to his family about his neighbors and fearing that they would repeat his statements and cause trouble, he determined to kill all four. He said he attempted to kill them on Thursday night when he secured an ax and went first to the bed of his children. They were asleep and looked so innocent that his heart failed him. The next day, however, he carried out his desire, first braining his 10-year-old daughter with a blow point, then attacking his two younger children, and finally the wife.

PROBE BEEF TRUST.

U. S. Attorney, at Chicago Ordered to See Whether Sherman Law Is Violated.

TO HELP KNOX DECIDE COURSE.

Information in Washington Was That the Department Has Ordered Investigations, to See Whether There Are Grounds for Taking Action.

Chicago, April 15.—United States Attorney S. H. Bethea, following instructions given by President Roosevelt and Attorney General Knox, will make a searching inquiry into the workings of the so-called beef trust in Chicago, in relation to the Sherman anti-trust law.

The investigation will be secret, and when finished a full report will be furnished to Washington for the use of the attorney general in deciding what course his department will take against the packers charged with being in the combination.

INSTRUCTED TO BEGIN INQUIRY.

District Attorney Bethea refused yesterday to discuss his plans or to reveal the nature of his instructions, but it was learned he not only has received written instructions by mail, but while in Washington last week was advised personally to begin the inquiry.

Particular attention will be paid to the charge that the territory in the various states has been parceled out among the members of the so-called trust, with the result of a sharp advance in all prices to the retailer. An effort will be made to secure proof of the existence of an agreement between the local packers to maintain a schedule of prices.

Representative Ray, of New York, chairman of the house committee on judiciary, to whom was referred the Thayer resolution calling upon the attorney general for information relative to the prosecution of the alleged beef trust, has written a letter to Attorney General Knox concerning the matter and has received a reply, which he will lay before the judiciary committee at its meeting today. The attorney general's letter will not be made public until it is presented to the committee.

Mr. Ray said yesterday: "I have no doubt that the attorney general of the United States will immediately probe the matter of the alleged beef trust to the bottom and prosecute all offenders promptly and vigorously if there is substantial evidence that the law has been or is being violated."

DEPENDS ON THE MINERS.

If They Today Ratify Agreement Reached at Punxsutawney, Pa., Strike Will End.

Dubois, Pa., April 15.—General Manager Robinson of the Rochester and Pittsburg Coal and Iron company, met President Mitchell and the district officers of the United Mine Workers, together with delegates from the different mines in this region, at Punxsutawney yesterday in a conference lasting five hours. Neither President Mitchell, the district officers, delegates nor Mr. Robinson would give out the result of the conference further than that an agreement had been reached and that the conditions of the Indianapolis agreement are now thoroughly understood by all parties.

The delegates hurried to their respective homes immediately after the

conference and at once called mass meetings to be held this afternoon.

From a thoroughly reliable source it is learned that the Indianapolis agreement and the Altoona scale were taken together, compared, discussed and a new agreement drafted, which includes concessions by Mr. Robinson from the Indianapolis agreement and concessions from the Altoona scale by the miners.

If this agreement is ratified by the miners in mass meetings today the strike will at once be declared off. Upon conclusion of the conference President Mitchell left at once for Altoona.

after which the price will go higher and higher until the stocks bought today at this low figure may be worth at least \$1,000 each. The reason for this marvelous enhancement is simple enough. It doesn't require argument to prove the value of a process by which a good fuel gas can be manufactured for less than five cents per thousand cubic feet.

THIS IS NOT AN EXPERIMENT, THE PROCESS HAS ALREADY BEEN THOROUGHLY DEMONSTRATED.

The Company's plant at Chester is now ready for operation, and the material to be used in the manufacture of the Gas has been ordered and will be shipped immediately.

PROBE BEEF TRUST.

U. S. Attorney, at Chicago Ordered to See Whether Sherman Law Is Violated.

TO HELP KNOX DECIDE COURSE.

Information in Washington Was That the Department Has Ordered Investigations, to See Whether There Are Grounds for Taking Action.

Chicago, April 15.—United States Attorney S. H. Bethea, following instructions given by President Roosevelt and Attorney General Knox, will make a searching inquiry into the workings of the so-called beef trust in Chicago, in relation to the Sherman anti-trust law.

The investigation will be secret, and when finished a full report will be furnished to Washington for the use of the attorney general in deciding what course his department will take against the packers charged with being in the combination.

Instructed to Begin Inquiry.

District Attorney Bethea refused yesterday to discuss his plans or to reveal the nature of his instructions, but it was learned he not only has received written instructions by mail, but while in Washington last week was advised personally to begin the inquiry.

Particular attention will be paid to the charge that the territory in the various states has been parceled out among the members of the so-called trust, with the result of a sharp advance in all prices to the retailer. An effort will be made to secure proof of the existence of an agreement between the local packers to maintain a schedule of prices.

Representative Ray, of New York, chairman of the house committee on judiciary, to whom was referred the Thayer resolution calling upon the attorney general for information relative to the prosecution of the alleged beef trust, has written a letter to Attorney General Knox concerning the matter and has received a reply, which he will lay before the judiciary committee at its meeting today. The attorney general's letter will not be made public until it is presented to the committee.

Mr. Ray said yesterday: "I have no doubt that the attorney general of the United States will immediately probe the matter of the alleged beef trust to the bottom and prosecute all offenders promptly and vigorously if there is substantial evidence that the law has been or is being violated."

Attitude as to Beef Trust.

Washington, April 15.—Reliable information yesterday was to the effect that the department of justice, in the

alleged beef trust matter, had not gone beyond the point of an investigation into the question of whether or not the trust has violated the federal law. No prosecution has been ordered and no grand jury has been summoned to determine the question so far as the department knows.

DEPENDS ON THE MINERS.

If They Today Ratify Agreement Reached at Punxsutawney, Pa., Strike Will End.

Dubois, Pa., April 15.—General Manager Robinson, of the Rochester and Pittsburg Coal and Iron company, met President Mitchell and the district officers of the United Mine Workers, together with delegates from the different mines in this region, at Punxsutawney yesterday in a conference lasting five hours.

Neither President Mitchell, the district officers, delegates nor Mr. Robinson would give out the result of the conference further than that an agreement had been reached and that the conditions of the Indianapolis agreement are now thoroughly understood by all parties.

The delegates hurried to their respective homes immediately after the

conference and at once called mass meetings to be held this afternoon.

From a thoroughly reliable source it is learned that the Indianapolis agreement and the Altoona scale were taken together, compared, discussed and a new agreement drafted, which includes concessions by Mr. Robinson from the Indianapolis agreement and concessions from the Altoona scale by the miners.

If this agreement is ratified by the miners in mass meetings today the strike will at once be declared off. Upon conclusion of the conference President Mitchell left at once for Altoona.

J. P. FAWCETT, C. B. WICK, Committee.
ED. A. KING,

"I would rather be instrumental in
bringing the employing classes and
the working classes together, so that
strikes and other industrial dis-
turbances would be minimized, if not
wholly abolished, and have credit for
that achievement placed upon my
tombstone than be president of the
United States. I am convinced that
if I can accomplish the task set for
me, I shall be a genuine benefactor
of my country, whereas, if I should
be president, I am not so certain of
the good I could do." The foregoing
utterance of Senator Hanna is called
out by the efforts of those whom he
calls his "fool friends" to boom him
as a presidential candidate. It shows
that, while he has no aspirations in
that direction, his ambitions and his
aims are none the less lofty.

Friends of reorganized Democracy
are in control of campaign machinery,
and the coming Democratic fight for
congressmen will be run without refer-
ence to the wishes of the one-time
"peerless" leader of the party. What
the paramount issue will be has not
yet been decided. If the Democratic
congressional campaign committee
can find out where the party stands
on the foremost public questions it
can do more than any other Democratic
organization of recent years has
been able to accomplish.

Representative Patterson, a Demo-
cratic member from the Memphis dis-
trict, has introduced a measure in
congress to abolish slavery in the
Philippines. Times have changed and
Democrats with them. Forty odd
years ago the majority of Democrats
in congress were doing what they
could, not only to perpetuate slavery
in United States territory, but to ex-
tend it.

We would like to remind the Salem
man who writes up news items and
dates them East Liverpool, speaking
three times in one short story of
"this place," that East Liverpool is
not a "place," but the largest city in
the county. Salem may be content
to remain a place, but East Liverpool
passed that stage long ago.

It looks as if East Liverpool would
have to wait until wireless telegraphy
became general for all-night telegraph
facilities. It is a misfortune for the
city that it is wholly at the mercy of
a telegraph corporation that shows no
desire to extend its business nor ac-
commodate the public.

With the opening of spring weather
building operations are starting in this
city and Chester at a rate which prom-

ises to eclipse all previous records.
It is going to be a busy season, as
well as one that will accomplish
much in the way of improvement and
expansion.

Prof. Starr, of the University of Chi-
cago, says the wedding ring is a mere
relic of barbarism. All right. Prof.
Starr may fire away at the wedding
ring all he pleases, but let him make
no effort to abolish the engagement
ring if he wishes to stand well with
the girls.

Belgium is too much of a working
man's country to consent to live for
ever under the government of an aris-
tocracy. The present uneasiness and
the demand for an extension of suff-
rage rights may presage the down-
fall of the throne.

San Francisco's mayor has planted
in a public square of that city a young
elm from Canton, O., as a memorial
to the late President McKinley. Trees
are a form of monument that deserve
more attention in this country.

The editor of the Commoner is hot
on the trail of the plutocrats once
more. It is a safe bet that he would
prefer traveling in their class to run-
ning behind them and shouting.

The Pittsburgh Times says the chief
want of that city today is a political
boss. Of course it wants a good one,
and the trouble is that all the suc-
cessful bosses keep their jobs.

The Beef Trust is to be investigat-
ed, and the public is hoping the bar-
ons will be hauled over the coals in
good style.

It never fails. Another report of
heavy fighting in the Transvaal fol-
lows the latest account of peace ne-
gotiations.

POTTERY NEWS

Work on the new addition to the
Laughlin pottery, at their East End
plant, is progressing rapidly, and it
will not be long now until the mam-
moth plant is completed. The brick-
layers have completed the erection of
the third story to what will be the
new decorating and ware room de-
partments, and machinery is being
placed in position as fast as possible.
A large force of carpenters are at
work at the new plant, but it will be
several weeks before their task is fin-
ished. There is much speculation at
this pottery who will have charge of
the several departments, and while
nothing definite can be learned, it is
thought by the workmen that the
head officers of this company have
not as yet given this question much
serious thought. It is almost an as-
sured fact that the general manage-
ment of this plant will be in charge of
General Superintendent Benjamin
Harker, while Elijah Mountford will
act as his assistant manager. It is
rumored about the factory that some
of the workmen will be advanced to
the position of department superinten-
dents.

Lyman Earl, a glost kilnman at
the Laughlin No. 2, is said to be a
candidate for a position on the police
force. Mr. Earl has been a resident
of this city for a number of years,
and is said to be a faithful workman.
His pottery friends wish him suc-
cess.

This week, on Thursday evening,
Warehouse Women's local No. 62 will
hold their first meeting since their
admission to the Brotherhood of Oper-
ative Potters. This session will be
held in the Citizens' bank hall, and the
attendance gives promise of being
very large.

General Manager Dyke, of the East
Liverpool Porcelain works, left last
evening for New York, where he will
remain until Saturday on business.
It is stated that the trip is for the
purpose of closing the contract for an
immense order.

The Barberton Pottery company
will soon be ready to start its factory.
Several of the kilns are completed
and the rest will be finished soon. The
work of installing machinery is pro-
gressing very rapidly.

Miss Gertrude Springer, of the glost
warehouse at the Laughlin No. 2
plant, has resumed her work, after an
illness lasting almost a week. She
resides on First avenue.

Jigermen's local No. 12 will hold
their regular weekly meeting in
Brotherhood hall this evening. Mat-
ters of importance are to be consid-
ered.

Tim Nolan, employed as a kilnhand
at the Cartwright, was off duty yes-
terday, and his shopmates allege he
had too much Dennis.

Pressers' local last evening obliga-
ted four new members.

Frank W. Fowler, vice president of
the Union Potteries company, of
Pittsburg, and Thomas Price, general
manager of the Chelsea pottery at
New Cumberland, were in the city
yesterday on business connected with
the company. Both gentlemen stated
that business with their company was
increasing rapidly, and that the Chelsea
was running better at present
than at any time since it has been un-
der the present management.

It has been stated upon authority
that the contract for the erection of
the buildings of the new pottery
which is to be built at Salineville by
the Dresden Pottery company, will
be let next Saturday afternoon. A
member of the company stated today
that a number of bids had been re-
ceived for the work, and that work on
the brick part of the pottery would
be started as soon as the foundation
was completed.

Rapid work is being done on the
new addition being built to the East
Liverpool Porcelain plant in the East
End by Contractor Weisend. The new
kiln that is being built at these works
is being topped out, and Saturday
work was commenced on the addition
which is being built on the west side
of the factory. It is said this con-
tract will not be completed until
about May 15, and probably later.

A rumor has been heard that a
slight advance would be asked from
the stilt manufacturers of this city
soon by the persons making them. It
is announced that while the compen-
sation for the making of some sizes
of stilts is satisfactory, there are sev-
eral sizes which are made at a price
far too low, and at a loss to the mak-
ers. When that advance will be asked
could not be learned.

By order of Congressional Committee,
J. P. FAWCETT, C. B. WICK, Committee,
ED. A. KING,

"I would rather be instrumental in bringing the employing classes and the working classes together, so that strikes and other industrial disturbances would be minimized, if not wholly abolished, and have credit for that achievement placed upon my tombstone than be president of the United States. I am convinced that if I can accomplish the task set for me, I shall be a genuine benefactor of my country, whereas, if I should be president, I am not so certain of the good I could do." The foregoing utterance of Senator Hanna is called out by the efforts of those whom he calls his "fool friends" to boom him as a presidential candidate. It shows that, while he has no aspirations in that direction, his ambitions and his aims are none the less lofty.

Friends of reorganized Democracy are in control of campaign machinery, and the coming Democratic fight for congressmen will be run without reference to the wishes of the one-time "peerless" leader of the party. What the paramount issue will be has not yet been decided. If the Democratic congressional campaign committee can find out where the party stands on the foremost public questions it can do more than any other Democratic organization of recent years has been able to accomplish.

Representative Patterson, a Democratic member from the Memphis district, has introduced a measure in congress to abolish slavery in the Philippines. Times have changed and Democrats with them. Forty odd years ago the majority of Democrats in congress were doing what they could, not only to perpetuate slavery in United States territory, but to extend it.

We would like to remind the Salem man who writes up news items and dates them East Liverpool, speaking three times in one short story of "this place," that East Liverpool is not a "place" but the largest city in the county. Salem may be content to remain a place, but East Liverpool passed that stage long ago.

It looks as if East Liverpool would have to wait until wireless telegraphy became general for all-night telegraph facilities. It is a misfortune for the city that it is wholly at the mercy of a telegraph corporation that shows no desire to extend its business nor accommodate the public.

With the opening of spring weather building operations are starting in this city and Chester at a rate which promises

to eclipse all previous records. It is going to be a busy season, as well as one that will accomplish much in the way of improvement and expansion.

Prof. Starr, of the University of Chicago, says the wedding ring is a mere relic of barbarism. All right. Prof. Starr may fire away at the wedding ring all he pleases, but let him make no effort to abolish the engagement ring if he wishes to stand well with the girls.

Belgium is too much of a working man's country to consent to live forever under the government of an aristocracy. The present uneasiness and the demand for an extension of suffrage rights may presage the downfall of the throne.

San Francisco's mayor has planted in a public square of that city a young elm from Canton, O., as a memorial to the late President McKinley. Trees are a form of monument that deserve more attention in this country.

The editor of the Commoner is hot on the trail of the plutocrats once more. It is a safe bet that he would prefer traveling in their class to running behind them and shouting.

The Pittsburgh Times says the chief want of that city today is a political boss. Of course it wants a good one, and the trouble is that all the successful bosses keep their jobs.

The Beef Trust is to be investigated, and the public is hoping the barons will be hauled over the coals in good style.

It never fails. Another report of heavy fighting in the Transvaal follows the latest account of peace negotiations.

MAKING PRISONERS WORK

Mayor Fogo Inaugurates a New Practice at Wellsville Jail.

Intoxicated lodgers at the city jail, who have no means of settling for their fines will hereafter be placed at work by Mayor Fogo.

The first victim was started to work today by the mayor, the man having no money with him, and no friends to secure his release. He is one of the plain drunks who were arrested on Saturday evening. He is now engaged in moving the ballot boxes from the council chamber to the basement of the city building and also in piling up the chairs not in use in the same room. Numerous other odd jobs which have heretofore not been attended to will now be done through the mayor's new arrangement.

The prisoners will be allowed good wages for their work. For instance, if their fine amounts to \$1 and costs it will only require a couple of days' work to pay it, and be released.

TWO HORSES KILLED

And Suit Entered Against Telegraph And Light Companies for Damages.

A suit has been filed in Squire MacKenzie's court by Wethers Bros. of Wellsville, against the United Power company, Wellsville Electric Light company and the Western Union Telegraph company for \$300 for damages resulting in the death of two horses owned by the plaintiff.

The plaintiff states that the horses were injured by coming in contact with a telegraph wire which was charged with electricity by reason of being crossed by an electric light wire six weeks ago.

The case will be given a hearing on April 24.

PAY FOR NECK SHAVES

Will Be Demanded By Wellsville Barbers After May 1.

Patrons of the Wellsville barbershop will in the future have to pay 15 cents for a shave if they expect to have their necks scraped as well as their faces. This decision was made by the barbers' union at a meeting last evening in Charles Mortise's shop on Main street.

This action is to take effect on and after May 1. It was also decided at the meeting to close all union shops for the entire day on legal holidays hereafter.

AN IMPORTANT PURCHASE

The construction department of the Whitacre company is said to be the largest of any company in eastern Ohio. The amount involved has not as yet been made public.

A BLOODY FIGHT

(Continued from First Page.)

Officer Dawson encountered Joe Woolley last night with one of his usual jags. He was arraigned this morning and had no money. The mayor was very pointed in his remarks. He stated the department had become very weary of his kind of characters, always wanting favors, but never willing to return them. His honor assured the prisoner that he would certainly lay out the fine of \$5.60. Joe went back to jail.

Having much time at his disposal William Smith, of Yellow Creek, came to town yesterday for an outing, got drunk and was run in by Officer Dawson. He received the usual penalty of \$5.60, and is endeavoring to have it liquidated by his employer.

WELLSVILLE

MAKING PRISONERS WORK

Mayor Fogo Inaugurates a New Practice at Wellsville Jail.

Intoxicated lodgers at the city jail, who have no means of settling for their fines will hereafter be placed at work by Mayor Fogo.

The first victim was started to work today by the mayor, the man having no money with him, and no friends to secure his release. He is one of the plain drunks who were arrested on Saturday evening. He is now engaged in moving the ballot boxes from the council chamber to the basement of the city building and also in piling up the chairs not in use in the same room. Numerous other odd jobs which have heretofore not been attended to will now be done through the mayor's new arrangement.

The prisoners will be allowed good wages for their work. For instance, if their fine amounts to \$1 and costs it will only require a couple of days' work to pay it, and be released.

TWO HORSES KILLED

And Suit Entered Against Telegraph And Light Companies for Damages.

A suit has been filed in Squire MacKenzie's court by Wethers Bros. of Wellsville, against the United Power company, Wellsville Electric Light company and the Western Union Telegraph company for \$300 for damages resulting in the death of two horses owned by the plaintiff.

The plaintiff states that the horses were injured by coming in contact with a telegraph wire which was charged with electricity by reason of being crossed by an electric light wire six weeks ago.

The case will be given a hearing on April 24.

PAY FOR NECK SHAVES

Will Be Demanded By Wellsville Barbers After May 1.

Patrons of the Wellsville barbershops will in the future have to pay 15 cents for a shave if they expect to have their necks scraped as well as their faces. This decision was made by the barbers' union at a meeting last evening in Charles Mortise's shop on Main street.

This action is to take effect on and after May 1. It was also decided at the meeting to close all union shops for the entire day on legal holidays hereafter.

AN IMPORTANT PURCHASE

Made By the Milligan Hardware Company at Wellsville.

The Milligan Hardware & Supply company on Monday purchased the construction department of the E. G. Whitacre Boiler company, of this city. The former company will take possession of its property on May 1 and will at that time occupy a part of the Whitacre block on Third street.

The construction department of the Whitacre company is said to be the largest of any company in eastern Ohio. The amount involved has not as yet been made public.

NEW MEN ARRIVING

To Take the Place of Those Who Lately Quit the Railroad Shops.

New men are arriving daily from the Pennsylvania company's shops at Pittsburgh, Ft. Wayne and Cleveland to take the places of the large number of men who left the employ of the company last week. The vacancies

are mostly in the machine and boiler departments.

Most of the men who quit work have been offered better positions at better wages elsewhere. Some, however, left because they were not satisfied with the 13-hour day plan which the company has adopted.

Hotel Change Rumored.

A rumor is in circulation that the hotel Metropole is about to change hands. It has been stated on good authority that Mrs. F. D. McCollum, the proprietress is in poor health and wishes and wishes to move away. She will not talk upon the matter, as she has not yet decided whether she will leave or not. The report that a well known hotel proprietor of Pittsburgh was in the city yesterday looking over the property, is denied.

Must Get Permits.

The Ft. Pitt Gas company has been notified by Mayor Fogo to take out a written permit in the future before digging up streets to make pipe connections. Plumbers and sewer contractors have got a notice to the same effect. A recent ordinance provides a fine for neglect of this order.

Funeral Tomorrow.

The funeral service of Paul Burlingame, who died yesterday morning at his home on Commerce street, will be held at the residence at 1:30 Wednesday afternoon, Rev. Mr. Vanderson, of the United Evangelical church, officiating. Interment will be in Spring Hill cemetery.

Suit Filed By Everson.

A writ has been filed in Squire MacKenzie's court by R. H. Everson versus H. W. Sinclair to recover \$86.58, which Everson claims he paid out on accounts which should have been paid out by Sinclair when they were partners. A hearing will be given April 24.

Raymond Morrissey, Main and Seventeenth streets, fell while playing at the George Aten coal bank and was badly bruised up. He is unable to be out.

John Hines, who has been working in the C. & P. shops, has resigned and accepted a position in the boiler department of the Ft. Wayne shops at Allegheny.

The Men's Brotherhood, an organization recently perfected among the male members of the First M. E. church, will give a social in the near future in the parlors of the church.

A BLOODY FIGHT

(Continued from First Page.)

Officer Dawson encountered Joe Woolley last night with one of his usual jags. He was arraigned this morning and had no money. The mayor was very pointed in his remarks. He stated the department had become very weary of his kind of characters, always wanting favors, but never willing to return them. His honor assured the prisoner that he would certainly lay out the fine of \$5.60. Joe went back to jail.

Having much time at his disposal William Smith, of Yellow Creek, came to town yesterday for an outing, got drunk and was run in by Officer Dawson. He received the usual penalty of \$5.60, and is endeavoring to have it liquidated by his employer.

ROCK IN HIS STOMACH

Wonderful Cure of Dyspepsia—A Much Talked-of Case.

Borders on Miraculous—Blood Wine Succeeds after Physicians said: "No Hope."

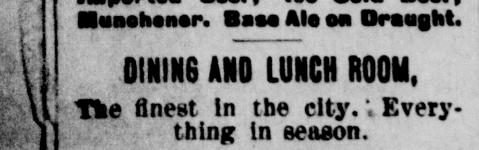

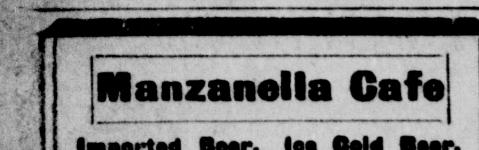

Mr. Edgar H. Warren of Waterville, Me., is a much talked-of man, because he has been cured of what he terms "Rock in the Stomach." His case, which has caused much widespread interest, has been the topic of discussion at nearly all of the recent medical gatherings, here and abroad. His experience almost rivals the wonderful surgical operation of a year ago, when in Sweden a man's stomach was completely removed, and he entirely recovered. These things merely go to show what can be done with the digestive organs when the proper means is available. Mr. Warren has this

E. H. WARREN.

to say: "I called it 'Rock in the Stomach' because I felt all the time as if there was a rock lodged in my stomach, about the size of an egg. It was so apparent that no one could make me believe different. People have stone in bladder, and gravel, — why couldn't I have a rock in the stomach? Well, I felt it for about a year. It was particularly prominent after meals, and gave me excruciating pain. Nothing would relieve it. Nothing would remove it. It became a constant burden, and so prominent that I could almost feel it with my hand. I also suffered as a result in many other ways. I would taste my food for hours after eating, and the gases and juices from the stomach were very nauseating. My appetite fell off until I ate very, very little. My weight ran down until I was about like a skeleton, and I thought my end was not far distant. Physicians one after the other treated me, and after making no headway, would remark that there was 'no hope.' I began to despair when 'Blood Wine' was recommended to me. I thought, of course, that if a regular physician couldn't help me that nothing else would. 'Try it,' said one of my friends. 'It will not cost you much, and if it don't cure you it surely won't hurt you.' This seemed plausible, so I went and got a bottle and took it, and it helped me. I got another; it worked like the first. The third, fourth, and fifth followed, and I continued to improve. I have just finished the sixth, and my last, for I am now thoroughly cured. My rock has disappeared, also the pain, nausea, gas, and other symptoms. My regular weight has returned, and I have no further complaints. I am going to do all I can for 'Blood Wine,' in return for what it did for me, and I have no hesitancy in saying that it is undoubtedly the best medicine for all forms of indigestion, stomach and bowel trouble, and constipation, ever sold or prescribed."

This is just one of many who speak highly of this great medicine. Blood Wine contains no wine or opiates, but ingredients that bring about almost instantaneous action. "Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed's and Hodson's drug-stores.

She Told the New England M. E. Conference That Messages Told Her of Petitions to God in Tasmania, China and India.

Boston, April 15.—Miss Elen M. Stone was present at the afternoon session of the New England Methodist conference yesterday and was called to the platform. She was warmly greeted by the members and made a very brief address, alluding to her recent experiences with the brigands of Bulgaria. Miss Stone said she had received messages from as far away as Tasmania, in the south of China, and India in the east, that prayers had been offered for her. She concluded with an expression of belief that her release had been a matter of providential interposition and another grateful recognition of that fact.

DEMOCRATS URGED HARMONY.

Democratic Club, of New York, Commemorates Jefferson's Birthday.

Hill Chief Orator.

New York, April 15.—The members of the Democratic club last night commemorated the birthday of Thomas Jefferson with a reception at the club house. It was looked upon among the Democrats of the city and state as a harmony meeting.

David B. Hill, who had not visited the club for number of years, was the chief orator of the evening, and in his speech he called upon Democrats to unite in harmony. Perry Belmont, whose differences with Mr. Bryan and Mr. Croker have kept him away from the club for three years, was also there.

Lewis Nixon, the new leader of Tammany Hall, introduced Mr. Hill. Hill's speech was interrupted by frequent bursts of applause. At its conclusion Congressman James M. Griggs, of Georgia, chairman of the congressional committee, spoke, advocating unity and predicting success for the party if internal differences were forgotten.

General Joseph Wheeler followed in a speech, urging harmony, and Edward M. Shepard eulogized David B. Hill and William J. Bryan.

State Senator Grady made a speech. Congressman Thomas H. Ball, of Texas, urged that harmony rule the Democrats from one end of the land to the other.

The speaking was closed by a few remarks from Bird S. Coler.

TWO CHILDREN MURDERED.

Dead Bodies Found Between Church and Their Home—Negro Suspected of Crime Arrested.

Des Moines, Ia., April 15.—While returning from Highland Park Methodist church on the north side of the city Sunday evening Mary Peterson, 15 years old, and Thomas, 11 years old, children of Peter J. Peterson, a dairyman, were murdered, it is believed, by a negro. The boy when found at midnight was alive, but died within 15 minutes without being able to give a description of his assailant.

James Hutchins, a negro, 27 years old, was arrested yesterday afternoon on suspicion. Excitement is running high in the city and talk of lynching is common.

MAY MEAN SHAFFER'S DEFEAT.

Much Depends on Admission of Certain Contested Delegates—Convention Opens Today.

Wheeling, W. Va., April 15.—Throughout yesterday the wage scale committee of the Amalgamated association was in session preliminary to the opening of the national convention here today. Nothing has been given out as to the proceedings and the members are pledged to secrecy.

The convention formally opens today at 10 a. m. The fight on the credentials of delegates from lodges that have been expelled or have fallen into arrears on strike assessments is expected to become bitter, and has a political bearing. The opponents of President Shaffer, who is seeking re-election, will favor the admission of the contested delegations, and if they are seated it may mean the defeat of Shaffer for re-election. His opponent undoubtedly will be Assistant Secretary Michael E. Tighe, a Wheeling man.

PEACE BRITAIN'S HOPE

British Cabinet Minister Praised Boer Valor In House of Commons.

BOER FARMS TO BE RE-STOCKED

Also Those of Colonials—Provisions Made For It In the Budget—Another Sum Included Apparently to Carry on War, if Needed.

London, April 15.—At a late hour last night The Associated Press learned, upon excellent authority that the principal provision of the budget, namely, the treasury loan of £32,000,000 upon which Sir Michael Hicks-Beach Chancellor of the Exchequer, in the house of commons, was remarkably reticent, has a serious bearing upon the peace question. There appears to be a very strong belief in the cabinet that, owing to the expected early termination of the war, the £32,000,000 will never be needed. When that section of the budget gets to the committee stage, the peace negotiations probably will have reached such shape that Sir Michael Hicks-Beach will be able to announce a diminution of yesterday's estimate. In any case, this loan probably will be called up in small installments.

The failure to explain this important point is taken in the House of Commons to indicate that the government has strong hopes of speedy issue of the negotiations now progressing in Pretoria between the Boer leaders, although it wishes to impress the world in general and the Boers in particular with its ability and determination to push the war to a finish should the British terms of peace be refused.

Hicks-Beach Praised Boers.

Sir Michael Hicks-Beach is seldom dramatic, but when he referred yesterday to the government's intention to restock the Boer, as well as the colonial farms, his voice rose to an eloquent pitch. His gesture, as he spoke in praise of the valor of the Boers and expressed his hopes for subsequent friendship between Briton and Boer, took the house with him and the cheers, especially from the opposition, prevented the speaker from continuing his speech for some moments. During this pause the chancellor of the exchequer turned towards Mr. Chamberlain, the colonial secretary, who sat pale and motionless, palpably none too pleased at this official recantation of his "unconditional surrender" formula.

There is no doubt that the proposals in the budget will be adopted. It is equally certain that none of the proposals will meet with the unanimous approval of either side of the house.

Revenue and Expenditure.

The statement showing the revenue and expenditure presented in the house of commons yesterday by the chancellor of the exchequer, when opening the budget announcements, showed a total ordinary expenditure for 1902-03 estimated at £129,159,000, with war charges amounting to £45,450,000, making a grand total of £174,609,000, which is £12,993,000 below the total for 1901-02.

In the course of his remarks the chancellor of the exchequer denied that the registration of duties on wheat and flour violated the principles of free trade, or would increase the cost of food. He thought the duties had been recklessly abandoned and declared their remission did not reduce the price of food.

London, April 15.—It is said that the communication of the Boer leaders to Lord Kitchener amounted to little more than a request for permission to use the cable in consulting Mr. Kruger and the Boer delegates in Europe regarding a basis for a peace settlement.

There is a distinctly hopeful feeling in official quarters.

Some of the Peace Proposals.

The Hague, April 15.—From those close in touch with the Boer leaders here it appears that the latest secret dispatches from South Africa outline the peace proposals now under discussion at Pretoria. They closely follow the summary given, on Saturday last, by The Evening News, of Edinburgh, with the following additional details:

The Boers accept a British lord commissioner with a Boer executive, both to be resident at Pretoria.

The country to be divided into districts, with British district officers and a Boer committee chosen by polling, by the Burghers. The veto right to be reserved to the British government. The majority of the British officers must be conversant with the Dutch language.

Johannesburg to be retroceded to the British with complete British civil organization.

A war indemnity of at least £10,000,000 to be distributed by mixed committees.

Disarmament to occur when the first batch of Boer prisoners is sent back to South Africa.

No tax to be levied.

Both languages to be recognized in the schools and courts and in official documents.

The expense of the garrisons in South Africa to be borne by Great Britain.

The present Boer leaders to be retained in office so far as possible.

Antarctic Expedition Heard From. New York, April 15.—News has been received here from the Swedish Antarctic expedition, whose leader is Dr. Otto Nordenskjold, cables the Montevideo, Uruguay, correspondent of The Herald. The expedition disembarked at Snow Hill, Louis Philippe Land. Dr. Nordenskjold decided to change his course. His expedition will remain at Snow Hill until next summer.

President's Life Heavily Insured.

New York, April 15.—President Roosevelt has taken out a policy for \$50,000 in a New York company, besides continuing policies for smaller amounts which he already had. His policies, it is understood, exceed by \$15,000 or \$20,000 those held by President McKinley. Mrs. McKinley was paid about \$60,000 on policies.

You Can Depend Upon the Word of This East Liverpool Citizen.

He has absolute faith in its merits.

Mr. P. J. Green, veterinary surgeon, says: "When attending a sick horse belonging to Mr. G. H. Gardiner, of 168 Jackson street, he remarked to me that the horse seemed to be in pain.

I replied that I was the sicker of the two, as I could at that time scarcely straighten up with my back from lameness, weakness and severe pains.

He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I had attacks at times when nothing helped me, and it was agony to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acidious; that I had spells of dizziness when I could see black specks floating before my eyes and felt generally broken up. He looked up and said he had the very thing needed to cure me in his house—Doan's Kidney Pills. He went into the house and brought me eight pills. I took them with me and used them two at a dose. The effect was astonishing. I felt it almost at once, and went to the W. & W. pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continual use the improvement continued, and I consider no expression of praise too strong for Doan's Kidney Pills. In short, they are no plus ultra."

ROCK IN HIS STOMACH

Wonderful Cure of Dyspepsia—A Much Talked-of Case.

Borders on Miraculous—Blood Wine Succeeds after Physicians said: "No Hope."

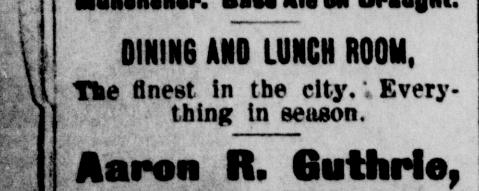

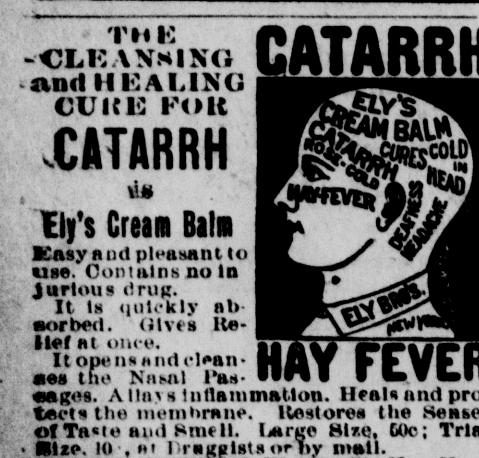

Mr. Edgar H. Warren of Waterville, Me., is a much talked-of man, because he has been cured of what he terms "Rock in the Stomach." His case, which has caused much widespread interest, has been the topic of discussion at nearly all of the recent medical gatherings, here and abroad. His experience almost rivals the wonderful surgical operation of a year ago, when in Sweden a man's stomach was completely removed, and he entirely recovered. These things merely go to show what can be done with the digestive organs when the proper means is available. Mr. Warren has this

E. H. WARREN.

to say: "I called it 'Rock in the Stomach' because I felt all the time as if there was a rock lodged in my stomach, about the size of an egg. It was so apparent that no one could make me believe different. People have stone in bladder, and gravel, why couldn't I have a rock in the stomach? Well, I felt it for about a year. It was particularly prominent after meals, and gave me excruciating pain. Nothing would relieve it. Nothing would remove it. It became a constant burden, and so prominent that I could almost feel it with my hand. I also suffered as a result in many other ways. I would taste my food for hours after eating, and the gases and juices from the stomach were very nauseating. My appetite fell off until I ate very, very little. My weight ran down until I was about like a skeleton, and I thought my end was not far distant. Physicians one after the other treated me, and after making no headway, would remark that there was 'no hope.' I began to despair when 'Blood Wine' was recommended to me. I thought, of course, that if a regular physician couldn't help me that nothing else would. 'Try it,' said one of my friends. 'It will not cost you much, and if it don't cure you it surely won't hurt you.' This seemed plausible, so I went and got a bottle and took it, and it helped me. I got another; it worked like the first. The third, fourth, and fifth followed, and I continued to improve. I have just finished the sixth, and my last, for I am now thoroughly cured. My rock has disappeared, also the pain, nausea, gas, and other symptoms. My regular weight has returned, and I have no further complaints. I am going to do all I can for 'Blood Wine,' in return for what it did for me, and I have no hesitancy in saying that it is undoubtedly the best medicine for all forms of indigestion, stomach and bowel trouble, and constipation, ever sold or prescribed."

This is just one of many who speak highly of this great medicine. Blood Wine contains no wine or opiates, but ingredients that bring about almost instantaneous action. "Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed's and Hodson's drug-stores.

Miss Stone Says Her Release Was Due to Providential Interposition.

PRAYERS IN FAR OFF LANDS.

She Told the New England M. E. Conference That Messages Told Her of Petitions to God in Tasmania, China and India.

Boston, April 15.—Miss Elen M. Stone was present at the afternoon session of the New England Methodist conference yesterday and was called to the platform. She was warmly greeted by the members and made a very brief address, alluding to her recent experiences with the brigands of Bulgaria. Miss Stone said she had received messages from as far away as Tasmania, in the south of China, and India in the east, that prayers had been offered for her. She concluded with an expression of belief that her release had been a matter of providential interposition and another grateful recognition of that fact.

DEMOCRATS URGED HARMONY.

Democratic Club, of New York, Commemorates Jefferson's Birthday.

Hill Chief Orator.

New York, April 15.—The members of the Democratic club last night commemorated the birthday of Thomas Jefferson with a reception at the club house. It was looked upon among the Democrats of the city and state as a harmony meeting.

David B. Hill, who had not visited the club for a number of years, was the chief orator of the evening, and in his speech he called upon Democrats to unite in harmony. Perry Belmont, whose differences with Mr. Bryan and Mr. Croker have kept him away from the club for three years, was also there.

Lewis Nixon, the new leader of Tammany Hall, introduced Mr. Hill.

Hill's speech was interrupted by frequent bursts of applause. At its conclusion Congressman James M. Griggs, of Georgia, chairman of the congressional committee, spoke, advocating unity and predicting success for the party if internal differences were forgotten.

General Joseph Wheeler followed in a speech, urging harmony, and Edward M. Shepard eulogized David B. Hill and William J. Bryan.

State Senator Grady made a speech. Congressman Thomas H. Ball, of Texas, urged that harmony rule the Democrats from one end of the land to the other.

The speaking was closed by a few remarks from Bird S. Coler.

TWO CHILDREN MURDERED.

Dead Bodies Found Between Church and Their Home—Negro Suspected of Crime Arrested.

Des Moines, Ia., April 15.—While returning from Highland Park Methodist church on the north side of the city Sunday evening Mary Peterson, 15 years old, and Thomas, 11 years old, children of Peter J. Peterson, a dairyman, were murdered, it is believed, by a negro. The boy when found at midnight was alive, but died within 15 minutes without being able to give a description of his assailant.

James Hutchins, a negro, 27 years old, was arrested yesterday afternoon on suspicion. Excitement is running high in the city and talk of lynching is common.

MAY MEAN SHAFFER'S DEFEAT.

Much Depends on Admission of Certain Contested Delegates—Convention Opens Today.

Wheeling, W. Va., April 15.—Throughout yesterday the wage scale committee of the Amalgamated association was in session preliminary to the opening of the national convention here today. Nothing has been given out as to the proceedings and the members are pledged to secrecy.

The convention formally opens today at 10 a. m. The fight on the credentials of delegates from lodges that have been expelled or have fallen into arrears on strike assessments is expected to become bitter, and has a political bearing. The opponents of President Shaffer, who is seeking re-election, will favor the admission of the contested delegations, and if they are seated it may mean the defeat of Shaffer for re-election. His opponent undoubtedly will be Assistant Secretary Michael E. Tighe, a Wheeling man.

PEACE BRITAIN'S HOPE

British Cabinet Minister Praised Boer Valor In House of Commons.

BOER FARMS TO BE RE-STOCKED

Also Those of Colonials—Provisions Made For It In the Budget—Another Sum Included Apparently to Carry on War, if Needed.

London, April 15.—At a late hour last night The Associated Press learned, upon excellent authority that the principal provision of the budget, namely, the treasury loan of £32,000,000 upon which Sir Michael Hicks-Beach Chancellor of the Exchequer, in the house of commons, was remarkably reticent, has a serious bearing upon the peace question. There appears to be a very strong belief in the cabinet that, owing to the expected early termination of the war, the £32,000,000 will never be needed. When that section of the budget gets to the committee stage, the peace negotiations probably will have reached such shape that Sir Michael Hicks-Beach will be able to announce a diminution of yesterday's estimate. In any case, the loan probably will be called up in small installments only.

The failure to explain this important point is taken in the House of Commons to indicate that the government has strong hopes of speedy issue of the negotiations now progressing in Pretoria between the Boer leaders, although it wishes to impress the world in general and the Boers in particular with its ability and determination to push the war to a finish should the British terms of peace be refused.

Hicks-Beach Praises Boers.

Sir Michael Hicks-Beach is seldom dramatic, but when he referred yesterday to the government's intention to restock the Boer, as well as the colonial farms, his voice rose to an eloquent pitch. His gesture, as he spoke in praise of the valor of the Boers and expressed his hopes for subsequent friendship between Briton and Boer, took the house with him and the cheers, especially from the opposition, prevented the speaker from continuing his speech for some moments. During this pause the chancellor of the exchequer turned towards Mr. Chamberlain, the colonial secretary, who sat pale and motionless, palpably none too pleased at this official recantation of his "unconditional surrender" formula.

There is no doubt that the proposals in the budget will be adopted. It is equally certain that none of the proposals will meet with the unanimous approval of either side of the house.

Revenue and Expenditure.

The statement showing the revenue and expenditure presented in the house of commons yesterday by the chancellor of the exchequer, when opening the budget announcements, showed a total ordinary expenditure for 1902-03 estimated at £129,159,000, with war charges amounting to £45,450,000, making a grand total of £174,609,000, which is £12,993,000 below the total for 1901-02.

In the course of his remarks the chancellor of the exchequer denied that the registration of duties on wheat and flour violated the principles of free trade, or would increase the cost of food. He thought the duties had been recklessly abandoned and declared their remission did not reduce the price of food.

London, April 15.—It is said that the communication of the Boer leaders to Lord Kitchener amounted to little more than a request for permission to use the cable in consulting Mr. Kruger and the Boer delegates in Europe regarding a basis for a peace settlement.

There is a distinctly hopeful feeling in official quarters.

Some of the Peace Proposals.
The Hague, April 15.—From those close in touch with the Boer leaders here it appears that the latest secret dispatches from South Africa outline the peace proposals now under discussion at Pretoria. They closely follow the summary given, on Saturday last, by the Evening News, of Edinburgh, with the following additional details:

The Boers accept a British lord commissioner with a Boer executive both to be resident at Pretoria.

The country to be divided into districts, with British district officers and a Boer committee chosen by polling, by the Burghers. The veto right to be reserved to the British government. The majority of the British officers must be conversant with the Dutch language.

Johannesburg to be retroceded to the British with complete British civil organization.

A war indemnity of at least £10,000,000 to be distributed by mixed committees.

Disarmament to occur when the first batch of Boer prisoners is sent back to South Africa.

No tax to be levied.

Both languages to be recognized in the schools and courts and in official documents.

The expense of the garrisons in South Africa to be borne by Great Britain.

The present Boer leaders to be retained in office so far as possible.

Antarctic Expedition Heard From.
New York, April 15.—News has been received here from the Swedish antarctic expedition, whose leader is Dr. Otto Nordenstjöld, cables the Montevideo, Uruguay, correspondent of The Herald. The expedition disembarked at Snow Hill, Louis Philippe Land. Dr. Nordenstjöld decided to change his course. His expedition will remain at Snow Hill until next summer.

President's Life Heavily Insured.

New York, April 15.—President Roosevelt has taken out a policy for \$50,000 in a New York company, besides continuing policies for smaller amounts which he already had. His policies, it is understood, exceed by \$15,000 or \$20,000 those held by President McKinley. Mrs. McKinley was paid about \$60,000 on policies.

ABSOLUTE FAITH

You Can Depend Upon the Word of This East Liverpool Citizen.

He has had the experience. He has thoroughly tested the article.

He found it as represented.

He has absolute faith in its merits. Mr. P. J. Green, veterinary surgeon, says: "When attending a sick horse belonging to Mr. G. H. Gardiner, of 168 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sicker of the two, as I could at that time scarcely straighten up with my back from lameness, weakness and severe pains.

He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I had attacks at times when nothing helped me, and it was agony to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acidious; that I had spells of dizziness when I could see black specks floating before my eyes and felt generally broken up. He looked up and said he had the very thing needed to cure me in his house—Doan's Kidney Pills. He went into the house and brought me eight pills. I took them with me and used them two at a dose. The effect was astonishing. I felt it almost at once, and went to the W. & W. pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continual use the improvement continued, and I consider no expression of praise too strong for Doan's Kidney Pills. In short, they are no plus ultra."

"Conscience Money" to Vatican.

New York, April 15.—The Italian authorities continue to collect "conscience money" for the vatican as a result of their efforts to run down the miscreants who robbed the pontiff of 8,000,000 francs, says a Rome dispatch to The American and Journal. The latest parcel of stolen property returned amounts to \$80,000 in American government bonds.

LIVE QUESTIONS TO BE TAKEN UP

Important Matters to Be Considered at Trades Council's Next Meeting.

PUBLIC LIBRARY MATTER

Likely to Come in for a Share of Discussion—Election of Officers May Be Postponed Because of Brotherhood Convention in May.

At the meeting of Trades and Labor Council to be held this week a number of important questions will be up for consideration and final action.

It was thought by a number of members of the organization that the Trades Council should have had some voice in the matter of finishing up the details in merging the public library and making it a part of the Carnegie institution.

This opinion was based upon the fact that ever since the library was started it has been supported and really owed its existence to the council. From time to time during the past two or three years various sums have been "loaned" to the institution. This was before it became self-sustaining, if indeed, it is in that condition today. The older members of the organization in voting upon these questions as they came up, took it for

granted that it was simply a case of donating to a good cause, even through the formality of taking votes was gone through. In the early history of the library the board of directors and all officers connected with it were labor men and were working in the interest of their fellows; therefore it was most natural that the council would respond when called upon.

Within the past two years, however, the laboring element has lost interest to a certain degree and new names have appeared in the list of directors at each election. Not that these parties have been particularly antagonistic to labor, but the fact that the interest had waned and there was no one left to maintain the institution, was accountable for this condition. All at once, and because certain individuals had a peculiar interest in attaining a certain end, the interest was suddenly revived, and the council, the founder of the public library, was once more in control.

As was stated, there are those among the members who think the council should have been consulted upon the question of merger; especially since but one of those selected to represent labor on the Carnegie board is a member of Trades Council. It is probable some discussion of the matter will be indulged in Wednesday night.

There is still another element which makes the claim that Trades Council should not have mixed in the matter at all, and perhaps this class is in the majority. However that may be, they are likely to be heard from if the discussion takes place.

On the first Wednesday of May.

On Wednesday morning we place on sale \$2,000 worth of Solid Gold, Gold Filled and Roll Plate Jewelry direct from the manufacturer at about 50 Cents on the Dollar. That is a strong statement, but we have

LIVE QUESTIONS TO BE TAKEN UP

Important Matters to Be Considered at Trades Council's Next Meeting.

PUBLIC LIBRARY MATTER

Likely to Come in for a Share of Discussion—Election of Officers May Be Postponed Because of Brotherhood Convention in May.

At the meeting of Trades and Labor Council to be held this week a number of important questions will be up for consideration and final action. It was thought by a number of members of the organization that the Trades Council should have had some voice in the matter of finishing up the details in merging the public library and making it a part of the Carnegie institution.

This opinion was based upon the fact that ever since the library was started it has been supported and really owed its existence to the council. From time to time during the past two or three years various sums have been "loaned" to the institution. This was before it became self-sustaining, if indeed, it is in that condition today. The older members of the organization in voting upon these questions as they came up, took it for

granted that it was simply a case of donating to a good cause, even through the formality of taking votes was gone through. In the early history of the library the board of directors and all officers connected with it were labor men and were working in the interest of their fellows; therefore it was most natural that the council would respond when called upon.

Within the past two years, however, the laboring element has lost interest to a certain degree and new names have appeared in the list of directors at each election. Not that these parties have been particularly antagonistic to labor, but the fact that the interest had waned and there was no one left to maintain the institution was accountable for this condition. All at once, and because certain individuals had a peculiar interest in attaining a certain end, the interest was suddenly revived, and the council, the founder of the public library, was once more in control.

As was stated, there are those among the members who think the council should have been consulted upon the question of merger; especially since but one of those selected to represent labor on the Carnegie board is a member of Trades Council. It is probable some discussion of the matter will be indulged in Wednesday night.

There is still another element which makes the claim that Trades Council should not have mixed in the matter at all, and perhaps this class is in the majority. However that may be, they are likely to be heard from if the discussion takes place.

On the first Wednesday of May,

according to the constitution, the election of officers should be held, but it is doubtful if the law will be carried out this year. In fact, a movement is on foot to have the election of officers postponed until the second meeting in May, which falls on the 15th.

The reason for this is that perhaps 50 per cent of the membership of the council is made up of representatives of the several pottery trades. Many of these men have been chosen as delegates to represent their locals at the Brotherhood convention to be held at Trenton during the same week on which the election of Trades Council's officers should be held. These delegates naturally have some interest in the selection of those men who will preside over them during the coming year, and will move a postponement at the meeting this week.

The Daughters of Liberty and their friends will give a dance at Rock Springs Park this evening. 89-h

BAKER'S PRICE WAS TOO LOW! AND THIS AROUSED DISTRUST

Had He Asked \$100 or \$200 He Might Have Succeeded Much Better.

A SALOON MAN'S OPINION

Intended Victims Are Appearing Before the Grand Jury Today.

DEPUTY ALLISON'S POSITION

Prosecution, It Is Said, Wants to Implicate Him—A Letter Which He Is Said to Have Sent Denied Knowledge of Baker's Plans.

When the first authentic reports of the Baker sensation were given to the public last night, a great many people were inclined to the belief that the man was mentally unsound. His course was so far from clever that even those who knew him best could hardly credit the story.

Among the most intimate of Baker's friends there were those, who, while they acknowledged him to have been a very genial fellow personally, state they would not have placed any confidence in anything he did. One of his intended victims was interviewed last night and said:

"There was not a single doubt in my mind from the beginning that the man was a fraud. In the first place his price was low—far too low—to carry the conviction that he could do what he professed. He named \$100 or \$200 I should have listened to him. I thought all along that he was working alone or had some inexperienced accomplice, or his figure would have been larger.

"A sufficient number of these cases have come under my personal observation to convince me that if a man of this calibre, armed with the authority he is supposed to have, approaches a man he must have some one farther "up the line" who will get the big end of the coin."

"Had Baker been a clever man he would have known that there would be no difficulty in figuring that \$25 from each of the men approached would hardly have paid his expenses, to say nothing of justifying him in the risk he ran."

Since the occurrence of last week inquiry has been made as to Baker's customs and habits while a resident of this city. He was an employee of the East Liverpool railway for almost a year, and from what could be learned in talking with employees now engaged on that line, there was something mysterious connected with his removal—a something which could not be explained.

Aside from the three individual saloonkeepers who made the information against Baker several others have been served with subpoenas to appear today. W. H. Thompson, A. R. Guthrie and Walter Bower received their summons early yesterday morning and later in the day George Parry was called upon to tell what he knew before the 12 good men and true. It is expected that the testimony of Parry will be of great value, since it was his place—the Commercial house, on Second street—at which Baker made his headquarters last week.

The prosecution is endeavoring to show today before the grand jury that Baker and Deputy Sheriff Allison were very intimately associated. So much so, in fact, that it had been his custom to visit Allison at his home in Lisbon. Early last week, according to reports received in this city, Baker was a visitor at the Allison home. He saw a large batch of summonses lying upon a table, all signed and sealed, ready for service. Noticing several familiar names Baker made a closer scrutiny and finally asked the deputy if he did not think he was working a great wrong to many of his friends among the saloon men by carrying out his purpose of serving the papers? Was it not possible to effect a compromise?

The prosecution, it is said, will try to show that Allison readily fell in with the idea, and then and there the compact was made. If the line of evidence is carried out as it was originally planned Baker came to East Liverpool next day and what followed the public is already familiar with.

Baker's part of the program had not progressed far when one of his victims, before making a decision in

the matter telephoned to Deputy Allison.

If the tactics of the prosecution, as originally planned, are carried out, they will show to the grand jury that Allison refused to discuss the subject over the telephone, but said he would write. In due time the letter arrived, and it contained the information that Baker was a friend of his, but disclaiming any knowledge of what he was engaged in here. He assured the recipient of the letter that he was in no way connected with the transaction, but where the best informed authorities are positive the deputy made a very grave mistake in giving the names of several who were on the list. The communication wound up by saying the writer was very sorry that his friends should be indicted, but the papers would have to be served.

At this point the saloonists consulted a legal authority as to the character of the offense, and after being satisfied that they had a good case, the matter was placed in the hands of the prosecutor. The letter will doubtless be submitted in evidence before the grand jury today.

An incident in connection with Baker's visits to the saloonmen goes to show that whether or not the officials are implicated, Baker was well posted upon the general workings of the office. He also had a knowledge of a very strong feeling between the sheriff's official force and several parties in this city.

When J. C. Walsh was seen by the alleged blackmailer, the former was told that they had it in for him out at Lisbon, and that he was to be indicted. Baker informed Walsh that others would be compromised with, but his instructions were that he (Walsh) would not be permitted to settle for the \$25. He was bound to be convicted.

A majority of those who will testify before the grand jury today left the city on the early train by way of Rochester. Officer Dawson, with Baker, left on the later train going to Alliance, in order that the prisoner should not be taken out of the state, which would have been the case if he was taken by way of Rochester.

A scheme similar to that attempted in East Liverpool is said to have been tried in Salem last week. The Salem saloon men refused to bite. Who the man was that visited them is not known.

LANDED IN LISBON

BAKER ARRIVED AT THE COUNTY SEAT AT NOON.

A Large Number of Saloon Men Appeared Before the Grand Jury.

Lisbon, April 15. — (Special) — O. L. Baker, the East Liverpool ex-motorman, charged with attempted blackmail, was brought to Lisbon on the noon train by Officer Dawson, of East Liverpool. A number of witnesses were examined by the grand jury, which is making every effort to get the facts in the case. The following witnesses are known to have been examined, most of them East Liverpool saloon keepers: Joseph W. Geon, Aaron R. Guthrie, J. C. Walsh, Walter Bower, W. H. Thompson, George Parry, Terry Carman and Attorney M. J. McGarry. A committee of the saloon men consulted McGarry regarding the case and because of this interview, it is supposed, McGarry was summoned.

All the saloon men refuse to talk, except that they strenuously deny that any of them was caught by Baker's scheme. The current opinion here seems to be that Baker succeeded in collecting some money. If indicted and convicted Baker will probably get from one to five years in the penitentiary.

For Bradshaw Addition Must Be Submitted Not Later Than May 5—Library Money Appropriated And Other Matters Taken Up.

After meeting all the collectors making the rounds of the saloons Monday morning, "Crip" Cain and William Swaney repaired to the shanty-boat district below the flint mill to do the best they could with what was left of the liquor—inside and out.

About 3:30 o'clock the two men became involved in an argument that promised to result seriously for one or the other. The jangle was kept up for some time, when Cain, whose left arm is a game one, concluded to end the altercation, and in a manner which would permit of no back talk. He picked up a portion of a kiln door and with deliberate aim threw it at Swaney, who states he expected a fair fight. The missile went wide of the mark, and vowing to do better next time, Cain gathered up another fragment. He hurled it in the same direction. This time his aim was better and Swaney was swatted just below the eye.

The ragged edge of the stone-like substance cut a nasty gash in Swaney's forehead and rendered him unconscious for a short time. He soon recovered, however, and with the aid of the patrol was taken to his home in Jethro, where Dr. Metz dressed the wound.

Meanwhile Cain had improved the time to make his escape, and lost no time in quitting the neighborhood. When the police arrived no trace of the fugitive could be found.

Late last night Cain was still at large, but Patrolman Woods got him at the home of his old friend in Dew-Drop alley, and he was taken to jail.

Cain was arrested later by Officer Woods and charged by him with "assault with intent to kill."

The mayor decided to defer a hearing until Swaney is able to appear.

Unless Swaney prefers the same charge as the officer, Cain will be tried for assault and battery only. He is becoming impatient and begs to be sent up.

Dick Burrows, who was in a row at the wharf boat Sunday night, showed up this morning and received the same dose, \$7.00, which was inflicted upon Ormes yesterday.

Jimmie Dutton was arrested by Fireman Bettridge last night on a charge of drunkenness. Dutton wandered into the fire station and was taken from there to the city jail.

Mayor Davidson fined him \$5.60. He arranged for the payment of his fine and was released.

Ed O'Neill came to town last Friday from New Castle. He is a kiln-hand and after securing a situation with Thomas Price to go to Toronto, proceeded to bowl up. He was captured by Officer Dawson and this morning was assessed \$5.60. He could not pay and was sent back to jail.

DUDLEY'S BRUTAL CRIMES.

Killed Daughter and Wounded Wife and Two Other Children. Sallisaw, I. T., April 15.—One of the most brutal murders ever committed in the Indian territory took place a few miles east of Sallisaw. A white man named Dudley killed his 10-year-old daughter, fatally wounded two other children and seriously injured his wife. Dudley has been brought to Sallisaw to prevent his being lynched.

In jail Dudley confessed the crime. He said he had been talking to his family about his neighbors and fearing that they would repeat his statements and cause trouble, he determined to kill all four. He said he attempted to kill them on Thursday night when he secured an ax and went first to the bed of his children. They were asleep and looked so innocent that his heart failed him. The next day, however, he carried out his desire, first braining his 10-year-old daughter with a plow point, then attacking his two younger children, and finally the wife.

PROBE BEEF TRUST.

U. S. Attorney, at Chicago Ordered to See Whether Sherman Law Is Violated.

TO HELP KNOX DECIDE COURSE.

Information in Washington Was That the Department Has Ordered Investigations, to See Whether There Are Grounds for Taking Action.

Chicago, April 15.—United States Attorney S. H. Bethea, following instructions given by President Roosevelt and Attorney General Knox, will make a searching inquiry into the workings of the so-called beef trust in Chicago, in relation to the Sherman anti-trust law.

The investigation will be secret, and when finished a full report will be furnished to Washington for the use of the attorney general in deciding what course his department will take against the packers charged with being in the combination.

INSTRUCTED TO BEGIN INQUIRY.

District Attorney Bethea refused yesterday to discuss his plans or to reveal the nature of his instructions, but it was learned he not only has received written instructions by mail, but while in Washington last week was advised personally to begin the inquiry.

Particular attention will be paid to the charge that the territory in the various states has been parceled out among the members of the so-called trust, with the result of a sharp advance in all prices to the retailer. An effort will be made to secure proof of the existence of an agreement between the local packers to maintain a schedule of prices.

Representative Ray, of New York, chairman of the house committee on judiciary, to whom was referred the Thayer resolution calling upon the attorney general for information relative to the prosecution of the alleged beef trust, has written a letter to Attorney General Knox concerning the matter and has received a reply, which he will lay before the judiciary committee at its meeting today. The attorney general's letter will not be made public until it is presented to the committee.

MR. RAY SAID YESTERDAY:

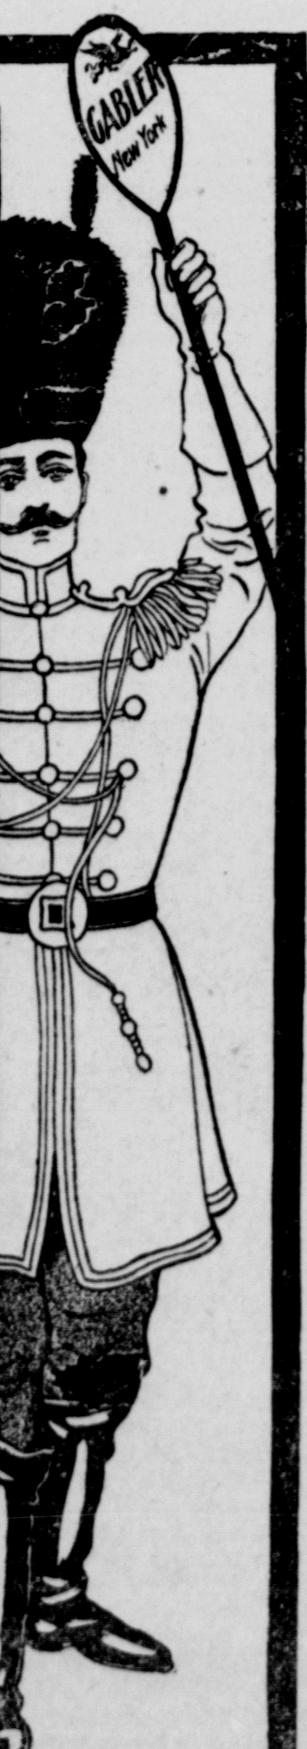

"I have no doubt that the attorney general of the United States will immediately probe the matter of the alleged beef trust to the bottom and prosecute all offenders promptly and vigorously if there is substantial evidence that the law has been or is being violated."

Insomnia

Nerve-racked, weary and heavy-eyed, the head that seeks repose finds only ceaseless tossing and feverish unrest. Strange fancies—vague forebodings—fill the mind with harrowing thoughts until morning brings its rasping headache, irritable temper, and loss of appetite. Rest the nerves—build them up—and gentle, restful, refreshing sleep will be yours.

“My greatest trouble was sleeplessness. I was nervous and restless, and would toss and roll for hours. Had no ambition and had to abandon business. One bottle of Dr. Miles' Nervine put me on my feet again.”

DEPENDS ON THE MINERS.

If They Today Ratify Agreement Reached at Punxsutawney, Pa., Strike Will End.

Dubois, Pa., April 15.—General Manager Robinson, of the Rochester and Pittsburgh Coal and Iron Company, met President Mitchell and the district officers of the United Mine Workers, together with delegates from the different mines in this region, at Punxsutawney yesterday in a conference lasting five hours. Neither President Mitchell, the district officers, delegates nor Mr. Robinson would give out the result of the conference further than that an agreement had been reached and that the conditions of the Indianapolis agreement are now thoroughly understood by all parties.

The delegates hurried to their respective homes immediately after the

conference and at once called mass meetings to be held this afternoon.

From a thoroughly reliable source it is learned that the Indianapolis agreement and the Altoona scale were taken together, compared, discussed and a new agreement drafted, which includes concessions by Mr. Robinson from the Indianapolis agreement and concessions from the Altoona scale by the miners.

If this agreement is ratified by the miners in mass meetings today the strike will at once be declared off. Upon conclusion of the conference President Mitchell left at once for Altoona.

after which the price will go higher and higher until the stocks bought today at this low figure may be worth at least \$1,000 each. The reason for this marvelous enhancement is simple enough. It doesn't require argument to prove the value of a process by which a good fuel gas can be manufactured for less than five cents per thousand cubic feet.

THIS IS NOT AN EXPERIMENT, THE PROCESS HAS ALREADY BEEN THOROUGHLY DEMONSTRATED.

The Company's plant at Chester is now ready for operation, and the material to be used in the manufacture of the gas has been ordered and will be shipped immediately.

I would rather be instrumental in bringing the employing classes and the working classes together, so that strikes and other industrial disturbances would be minimized, if not wholly abolished, and have credit for that achievement placed upon my tombstone than be president of the United States. I am convinced that if I can accomplish the task set for me, I shall be a genuine benefactor of my country, whereas, if I should be president, I am not so certain of the good I could do. The foregoing utterance of Senator Hanna is called out by the efforts of those whom he calls his "fool friends" to boom him as a presidential candidate. It shows that, while has no aspirations in that direction, his ambitions and his aims are none the less lofty.

Friends of reorganized Democracy are in control of campaign machinery, and the coming Democratic fight for congressmen will be run without reference to the wishes of the one-time "peerless" leader of the party. What the paramount issue will be has not yet been decided. If the Democratic congressional campaign committee can find out where the party stands on the foremost public questions it can do more than any other Democratic organization of recent years has been able to accomplish.

Representative Patterson, a Democratic member from the Memphis district, has introduced a measure in congress to abolish slavery in the Philippines. Times have changed and Democrats with them. Forty odd years ago the majority of Democrats in congress were doing what they could, not only to perpetuate slavery in United States territory, but to extend it.

We would like to remind the Salem man who writes up news items and dates them East Liverpool, speaking three times in one short story of "this place," that East Liverpool is not a "place" but the largest city in the county. Salem may be content to remain a place, but East Liverpool passed that stage long ago.

It looks as if East Liverpool would have to wait until wireless telegraphy became general for all-night telegraph facilities. It is a misfortune for the city that it is wholly at the mercy of a telegraph corporation that shows no desire to extend its business nor accommodate the public.

With the opening of spring weather building operations are starting in this city and Chester at a rate which promises

to eclipse all previous records. It is going to be a busy season, as well as one that will accomplish much in the way of improvement and expansion.

Prof. Starr, of the University of Chicago, says the wedding ring is a mere relic of barbarism. All right. Prof. Starr may fire away at the wedding ring all he pleases, but let him make no effort to abolish the engagement ring if he wishes to stand well with the girls.

Belgium is too much of a working man's country to consent to live forever under the government of an aristocracy. The present uneasiness and the demand for an extension of suffrage rights may presage the downfall of the throne.

The editor of the Commoner is hot on the trail of the plutocrats once more. It is a safe bet that he would prefer traveling in their class to running behind them and shouting.

The Pittsburg Times says the chief want of that city today is a political boss. Of course it wants a good one, and the trouble is that all the successful bosses keep their jobs.

The Beef Trust is to be investigated, and the public is hoping the barons will be hauled over the coals in good style.

POTTERY NEWS

Work on the new addition to the Laughlin pottery, at their East End plant, is progressing rapidly, and it will not be long now until the mammoth plant is completed. The bricklayers have completed the erection of the third story to what will be the new decorating and ware room departments, and machinery is being placed in position as fast as possible. A large force of carpenters are at work at the new plant, but it will be several weeks before their task is finished. There is much speculation at this pottery who will have charge of the several departments, and while nothing definite can be learned, it is thought by the workmen that the head officers of this company have not as yet given this question much serious thought. It is almost an assured fact that the general management of this plant will be in charge of General Superintendent Benjamin Harker, while Elijah Mountford will act as his assistant manager. It is rumored about the factory that some of the workmen will be advanced to the position of department superintendents.

Belgium is too much of a working man's country to consent to live forever under the government of an aristocracy. The present uneasiness and the demand for an extension of suffrage rights may presage the downfall of the throne.

San Francisco's mayor has planted in a public square of that city a young elm from Canton, O., as a memorial to the late President McKinley. Trees are a form of monument that deserve more attention in this country.

The editor of the Commoner is hot on the trail of the plutocrats once more. It is a safe bet that he would prefer traveling in their class to running behind them and shouting.

At a recent meeting of the stockholders of the Crown Pottery company of Evansville, Ind., all the former head officers tendered their resignation, and in their place a complete new directorate was elected. William Banninghoff, formerly president, and Mr. Uhl, formerly secretary, retired from office, but Mr. Uhl was made chief bookkeeper of the company. Mr. Weil has been elected president of the new company, but when asked as to the future policy he stated he did not care to express an opinion just at this time. It will be remembered the Crown Potteries company is composed of Peoria and Evansville potteries, and it is stated that during the present month the Peoria pottery will be started in full. Henry Flenke, formerly of this city, will be general manager of the combined plants. He is well known as a pottery manager, and his success in his new position is assured.

It was learned yesterday that while a meeting of the stockholders of the American Potteries company was held in Jersey City last week, no director was elected on account of other important business of this company being up for consideration. A gentleman in close touch with the business of this company stated to a reporter yesterday evening that matters with the concern were progressing with the utmost satisfaction and that the election of officers would follow within a short time.

Frank W. Fowler, vice president of the Union Potteries company, of Pittsburgh, and Thomas Price, general manager of the Chelsea pottery at New Cumberland, were in the city yesterday on business connected with the company. Both gentlemen stated that business with their company was increasing rapidly, and that the Chelsea was running better at present than at any time since it has been under the present management.

It has been stated upon authority that the contract for the erection of the buildings of the new pottery which is to be built at Salineville by the Dresden Pottery company, will be let next Saturday afternoon. A member of the company stated today that a number of bids had been received for the work, and that work on the brick part of the pottery would be started as soon as the foundation was completed.

Rapid work is being done on the new addition being built to the East Liverpool Porcelain plant in the East End by Contractor Weisend. The new kiln that is being built at these works is being topped out, and Saturday work was commenced on the addition which is being built on the west side of the factory. It is said this contract will not be completed until about May 15, and probably later.

A rumor has been heard that a slight advance would be asked from the stilt manufacturers of this city, soon by the persons making them. It is announced that while the compensation for the making of some sizes of stilts is satisfactory, there are several sizes which are made at a price far too low, and at a loss to the makers. When that advance will be asked could not be learned.

Pulaski Ferguson, settler-out at the old end, has been in ill health for some time. He has decided to go to Cambridge Springs in the hope of benefiting his health. During his absence his position will be looked after by Thomas Pickal, a member of the kilnmen's force at the Cartwright. Mr. Pickal has recently been off duty on account of illness, but has recovered.

to eclipse all previous records. It is going to be a busy season, as well as one that will accomplish much in the way of improvement and expansion.

Lyman Earl, a glost kilnman at the Laughlin No. 2, is said to be a candidate for a position on the police force. Mr. Earl has been a resident of this city for a number of years, and is said to be a faithful workman. His pottery friends wish him success.

This week, on Thursday evening, Warehouse Women's local No. 62 will hold their first meeting since their admission to the Brotherhood of Operative Potters. This session will be held in the Citizens' bank hall, and the attendance gives promise of being very large.

General Manager Dyke, of the East Liverpool Porcelain works, left last evening for New York, where he will remain until Saturday on business. It is stated that the trip is for the purpose of closing the contract for an immense order.

The Barberville Pottery company will soon be ready to start its factory. Several of the kilns are completed and the rest will be finished soon. The work of installing machinery is progressing very rapidly.

Miss Gertrude Springer, of the glost warehouse at the Laughlin No. 2 plant, has resumed her work, after an illness lasting almost a week. She resides on First avenue.

Jiggermen's local No. 12 will hold their regular weekly meeting in Brotherhood hall this evening. Matters of importance are to be considered.

Tim Nolan, employed as a kilnhand at the Cartwright, was off duty yesterday, and his shopmates allege he had too much Dennis.

Pressers' local last evening obligated four new members.

FRIENDS AND VISITORS

B. Rand, of Second street, left today for Cambridge Springs for a few weeks.

Miss Alice Cashbaugh, of Beaver Falls, is visiting Miss Minnie Hayden, of Fourth street.

T. D. Barnes arrived in the city this morning from Denver, Col., where he has been for several months.

Fireman Thomas Bryan has been confined to his home on East Market street for several days on account of illness. He was first ill with pneumonia, which has terminated in tonsilitis.

It was learned yesterday that while a meeting of the stockholders of the American Potteries company was held in Jersey City last week, no director was elected on account of other important business of this company being up for consideration. A gentleman in close touch with the business of this company stated to a reporter yesterday evening that matters with the concern were progressing with the utmost satisfaction and that the election of officers would follow within a short time.

MAKING PRISONERS WORK

Mayor Fogo Inaugurates a New Practice at Wellsville Jail.

Intoxicated lodgers at the city jail, who have no means of settling for their fines will hereafter be placed at work by Mayor Fogo.

The first victim was started to work today by the mayor, the man having no money with him, and no friends to secure his release. He is one of the plain drunks who were arrested on Saturday evening. He is now engaged in moving the ballot boxes from the council chamber to the basement of the city building and also in piling up the chairs not in use in the same room. Numerous other odd jobs which have heretofore not been attended to will now be done through the mayor's new arrangement.

The prisoners will be allowed good wages for their work. For instance, if their fine amounts to \$1 and costs it will only require a couple of days' work to pay it, and be released.

And Suit Entered Against Telegraph And Light Companies for Damages.

A suit has been filed in Squire MacKenzie's court by Wethers Bros. of Wellsville, against the United Power company, Wellsville Electric Light company and the Western Union Telegraph company for \$300 for damages resulting in the death of two horses owned by the plaintiff.

The case will be given a hearing on April 24.

Patrons of the Wellsville barber shops will in the future have to pay 15 cents for shave if they expect to have their necks scraped as well as their faces. This decision was made by the barbers' union at a meeting last evening in Charles Mortise's shop on Main street.

This action is to take effect on and after May 1. It was also decided at the meeting to close all union shops for the entire day on legal holidays hereafter.

AN IMPORTANT PURCHASE

Made By the Milligan Hardware Company at Wellsville.

The Milligan Hardware & Supply company on Monday purchased the construction department of the E. G. Whitacre Boiler company, of this city. The former company will take possession of its property on May 1 and will at that time occupy a part of the Whitacre block on Third street.

The construction department of the Whitacre company is said to be the largest of any company in eastern Ohio. The amount involved has not as yet been made public.

McCollum, the proprietress is in poor health and wishes and wishes to move away. She will not talk upon the matter, as she has not yet decided whether she will leave or not. The report that a well known hotel proprietor of Pittsburgh was in the city yesterday looking over the property, is denied.

Must Get Permits.

The Ft. Pitt Gas company has been required by Mayor Fogo to take out a written permit in the future before digging up streets to make pipe connections. Plumbers and sewer contractors have got a notice to the same effect. A recent ordinance provides a fine for neglect of this order.

Funeral Tomorrow.

The funeral service of Paul Burlingame, who died yesterday morning at his home on Commerce street, will be held at the residence at 1:30 Wednesday afternoon, Rev. Mr. Vandersol, of the United Evangelical church, officiating. Interment will be in Spring Hill cemetery.

A writ has been filed in Squire MacKenzie's court by R. H. Everson versus H. W. Sinclair to recover \$86.58, which Everson claims he paid out on accounts which should have been paid out by Sinclair when they were partners. A hearing will be given April 24.

A BLOODY FIGHT

(Continued from First Page.)

Officer Dawson encountered Joe Woolley last night with one of his usual jags. He was arraigned this morning and had no money. The mayor was very pointed in his remarks. He stated the department had become very weary of his kind of characters, always wanting favors, but never willing to return them. His honor assured the prisoner that he would certainly lay out the fine of \$5.60. Joe went back to jail.

Having much time at his disposal William Smith, of Yellow Creek, came to town yesterday for an outing, got drunk and was run in by Officer Dawson. He received the usual penalty of \$5.60, and is endeavoring to have it liquidated by his employer.

PEACE BRITAIN'S HOPE

British Cabinet Minister Praises Boer Valor In House of Commons.

BOER FARMS TO BE RE-STOCKED

Also Those of Colonials—Provisions Made For It In the Budget—Another Sum Included Apparently to Carry on War, if Needed.

London, April 15.—At a late hour last night The Associated Press learned, upon excellent authority that the principal provision of the budget, namely, the treasury loan of £32,000,000 upon which Sir Michael Hicks-Beach Chancellor of the Exchequer, in the house of commons, was remarkably reticent, has a serious bearing upon the peace question. There appears to be a very strong belief in the cabinet that, owing to the expected early termination of the war, the £32,000,000 will never be needed. When that section of the budget gets to the committee stage, the peace negotiations probably will have reached such shape that Sir Michael Hicks-Beach will be able to announce a diminution of yesterday's estimate. In any case, this loan probably will be called up in small installments only.

The failure to explain this important point is taken in the House of Commons to indicate that the government has strong hopes of speedy issue of the negotiations now progressing in Pretoria between the Boer leaders, although it wishes to impress the world in general and the Boers in particular with its ability and determination to push the war to a finish should the British terms of peace be refused.

Hicks-Beach Praises Boers.

Sir Michael Hicks-Beach is seldom dramatic, but when he referred yesterday to the government's intention to restock the Boer, as well as the colonial farms, his voice rose to an eloquent pitch. His gesture, as he spoke in praise of the valor of the Boers and expressed his hopes for subsequent friendship between Britain and Boer, took the house with him and the cheers, especially from the opposition, prevented the speaker from continuing his speech for some moments. During this pause the chancellor of the exchequer turned towards Mr. Chamberlain, the colonial secretary, who sat pale and motionless, palpably none too pleased at this official recantation of his "unconditional surrender" formula.

There is no doubt that the proposals in the budget will be adopted. It is equally certain that none of the proposals will meet with the unanimous approval of either side of the house.

Revenue and Expenditure.

The statement showing the revenue and expenditure presented in the house of commons yesterday by the chancellor of the exchequer, when opening the budget announcements, showed a total ordinary expenditure for 1902-03 estimated at £129,159,000, with war charges amounting to £45,450,000, making a grand total of £174,609,000, which is £12,993,000 below the total for 1901-02.

In the course of his remarks the chancellor of the exchequer denied that the registration of duties on wheat and flour violated the principles of free trade, or would increase the cost of food. He thought the duties had been recklessly abandoned and declared their remission did not reduce the price of food.

London, April 15.—It is said that the communication of the Boer leaders to Lord Kitchener amounted to little more than a request for permission to use the cable in consulting Mr. Kruger and the Boer delegates in Europe regarding a basis for a peace settlement.

There is a distinctly hopeful feeling in official quarters.

Some of the Peace Proposals.

The Hague, April 15.—From those close in touch with the Boer leaders here it appears that the latest secret dispatches from South Africa outline the peace proposals now under discussion at Pretoria. They closely follow the summary given, on Saturday last, by The Evening News, of Edinburgh, with the following additional details:

The Boers accept a British lord commissioner with a Boer executive, both to be resident at Pretoria.

The country to be divided into districts, with British district officers and a Boer committee chosen by polling, by the Burghers. The veto right to be reserved to the British government. The majority of the British officers must be conversant with the Dutch language.

Johannesburg to be retroceded to the British with complete British civil organization.

A war indemnity of at least £10,000,000 to be distributed by mixed committees.

Disarmament to occur when the first batch of Boer prisoners is sent back to South Africa.

No tax to be levied.

Both languages to be recognized in the schools and courts and in official documents.

The expense of the garrisons in South Africa to be borne by Great Britain.

The present Boer leaders to be retained in office so far as possible.

Antarctic Expedition Heard From.
New York, April 15.—News has been received here from the Swedish antarctic expedition, whose leader is Dr. Otto Nordenskjold, cables the Montevideo, Uruguay, correspondent of The Herald. The expedition disembarked at Snow Hill, Louis Philippe Land. Dr. Nordenskjold decided to change his course. His expedition will remain at Snow Hill until next summer.

President's Life Heavily Insured.

New York, April 15.—President Roosevelt has taken out a policy for \$50,000 in a New York company, besides continuing policies for smaller amounts which he already had. His policies, it is understood, exceed by \$15,000 or \$20,000 those held by President McKinley. Mrs. McKinley was paid about \$60,000 on policies.

ABSOLUTE FAITH

You Can Depend Upon the Word of This East Liverpool Citizen.

He has had the experience. He has thoroughly tested the article.

He found it as represented.

He has absolute faith in its merits. Mr. P. J. Green, veterinary surgeon, says: "When attending a sick horse belonging to Mr. G. H. Gardiner, of 168 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sicker of the two, as I could at that time scarcely straighten up with my back from lameness, weakness and severe pains. He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I had attacks at times when nothing helped me, and it was agony to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acidious; that I had spells of dizziness when I could see black specks floating before my eyes and felt generally broken up. He looked up and said he had the very thing needed to cure me in his house—Doan's Kidney Pills. He went into the house and brought me eight pills. I took them with me and used them two at a dose. The effect was astonishing. I felt it almost at once, and went to the W. & W. pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continual use the improvement continued, and I consider no expression of praise too strong for Doan's Kidney Pills. In short, they are no plus ultra."

LIVE QUESTIONS TO BE TAKEN UP

Important Matters to Be Considered at Trades Council's Next Meeting.

PUBLIC LIBRARY MATTER

Likely to Come in for a Share of Discussion—Election of Officers May Be Postponed Because of Brotherhood Convention in May.

At the meeting of Trades and Labor Council to be held this week a number of important questions will be up for consideration and final action.

It was thought by a number of members of the organization that the Trades Council should have had some voice in the matter of finishing up the details in merging the public library and making it a part of the Carnegie institution.

This opinion was based upon the fact that ever since the library was started it has been supported and really owed its existence to the council. From time to time during the past two or three years various sums have been "loaned" to the institution.

This was before it became self-sustaining, if indeed, it is in that condition today. The older members of the organization in voting upon these questions as they came up, took it for

granted that it was simply a case of donating to a good cause, even through the formality of taking votes was gone through. In the early history of the library the board of directors and all officers connected with it were labor men and were working in the interest of their fellows; therefore it was most natural that the council would respond when called upon.

Within the past two years, however, the laboring element has lost interest to a certain degree and new names have appeared in the list of directors at each election. Not that these parties have been particularly antagonistic to labor, but the fact that the interest had waned and there was no one left to maintain the institution, was accountable for this condition. All at once, and because certain individuals had a peculiar interest in attaining a certain end, the interest was suddenly revived, and the council, the founder of the public library, was once more in control.

As was stated, there are those among the members who think the council should have been consulted upon the question of merger; especially since but one of those selected to represent labor on the Carnegie board is a member of Trades Council. It is probable some discussion of the matter will be indulged in Wednesday night.

There is still another element which makes the claim that Trades Council should not have mixed in the matter at all, and perhaps this class is in the majority. However that may be, they are likely to be heard from if the discussion takes place.

On the first Wednesday of May,

according to the constitution, the election of officers should be held, but it is doubtful if the law will be carried out this year. In fact, a movement is on foot to have the election of officers postponed until the second meeting in May, which falls on the 15th.

The reason for this is that perhaps 50 per cent of the membership of the council is made up of representatives of the several pottery trades. Many of these men have been chosen as delegates to represent their locals at the Brotherhood convention to be held at Trenton during the same week on which the election of Trades Council's officers should be held. These delegates naturally have some interest in the selection of those men who will preside over them during the coming year, and will move a postponement at the meeting this week.

The Daughters of Liberty and their friends will give a dance at Rock Springs Park this evening.
